

Injectables

We offer a variety of injectable fillers such as Restylane, Juvederm Ultra, Juvederm Ultra Plus, and Perlane. Fillers are used to plump and smooth. These can be placed in and around the lips, nasolabial folds, Marionette lines, tear troughs, or multiple other places that could use a little volume. The best filler for you will be discussed in a consultation prior to service.

We offer Botox as well. Botox is used to relax the muscles that cause wrinkles. This helps to smooth out fine lines on the forehead, and around the eyes.

Microdermabrasion

We use a crystal-free, diamond tipped wand to gently, yet effectively remove the outer layer of dull skin, revealing fresher, more rejuvenated skin. This completely non-invasive procedure can be

performed monthly for best results, and can be combined with a facial for the ultimate experience.

Microdermabrasions are used to soften and smooth the skin, while speeding up the cell renewal

process, ultimately making your skin work harder for itself. The serums that we use help to soothe, hydrate and protect the skin. We also offer cooling, hydrating masks to further calm the skin.

Add a microdermabrasion or chemical peel to any facial for only \$50 more.

Lymphatic Drainage

Lymphatic Drainage is a facial massage that helps to clear sinus pressure. It is also used to promote healing and decrease bruising. We use a smooth wand attached to a vacuum system to manipulate the lymph and move it towards the lymph nodes to be filtered. This treatment also includes a cooling mask. Aside from feeling great, lymphatic drainage is very beneficial!

Lymphatic Drainage- \$70
(approximately 30 minutes)
